LEADER BREEDERS

NEWSLETTER

As 2025 takes off, Leader Breeders is looking for more community partners and ways to serve the inner city youth in Baltimore. We are also looking for as many exposure opportunities as possible. If more people are aware of the work we're doing, that can lead to us making a bigger impact.

This past week, Leader Breeders was featured on WMAR ABC News for Thank Your Mentor Day. Kara Burnett and WMAR took the time to shed light on our Mentorship Program. The feature shared the importance of mentors and the positive impact it can have on all parties involved. We are still actively looking for mentors and mentees to be apart of the program. If you are interested please don't hesitate to reach out.

Winter Recap

Leader Breeders had a very rewarding and fulfilling Winter. We were able to host a lot of different programming and events that had a tremendous impact on our participants and their families. Through November and December we hosted the inaugural Bmore Active Elementary Basketball League. Many teams competed, but ultimately Mt. Washington prevailed as our very first CHAMPIONS. We also resurrected the Kirby Classic Memorial Event. We hosted 4 Girl's HS basketball teams at Rosedale Christian. Teams competed, but also participated in a workshop that educated them on what it would take to become a collegiate basketball player. Mount Zion and Rosedale Christian were the respective winners during the event. In December we teamed up with Peace Players to host a leadership workshop with our mentorship program and their families. We had a BLAST! Our FAVORITE event of the year was our Christmas Giveback Event that we hosted at The Belair Edison School. We were able to serve 196 individuals that were apart of their school community. We provided them with free food, clothing, shoes, and toys. They were even able to take a picture with Santa! Special thanks to everyone who helped support the Give Back event!

Inside LB & The Community

Leader Breeders is dedicated to collaborating with community partners, community schools, and other organizations to bring unique experiences to our youth and their respective communities. We are currently in the process of creating the East - West LAB (Leadership Alliance of Baltimore). The LAB is a network of organizations in which we will develop consistent programming to support the needs of various Baltimore neighborhoods.

Leader Breeders is currently looking for participants - both individual and schools to be apart of our Sports Themed Spelling Bee. If you or someone you know is interested please don't hesitate to reach out.

Leader Breeders believes in paying it forward. If you get the opportunity to, please support other local non-profits and community schools.
